

103D CONGRESS
1ST SESSION

S. J. RES. 95

JOINT RESOLUTION

To designate October 1993 as "National Breast
Cancer Awareness Month" .

JOINT RESOLUTION

To designate October 1993 as “National Breast Cancer Awareness Month”.

Whereas breast cancer will strike an estimated 182,000 women and 1,000 men in the United States in 1993;

Whereas the risk of developing breast cancer increases as a woman grows older;

Whereas breast cancer is the second leading cause of cancer death in women, and will kill an estimated 46,000 women and 300 men in 1993;

Whereas the 5-year survival rate for localized breast cancer has risen from 78 percent in the 1940’s to over 90 percent today;

Whereas most breast cancers are detected by the woman herself;

Whereas educating both the public and health care providers about the importance of early detection will result in reducing breast cancer mortality;

Whereas appropriate use of screening mammography, in conjunction with clinical examination and breast self-examination, can result in the detection of many breast cancers early in their development and increase the survival rate to nearly 100 percent;

Whereas data from controlled trials clearly demonstrate that deaths from breast cancer are significantly reduced in women who have been screened by mammography;

Whereas many women are reluctant to have screening mammograms for a variety of reasons, such as the cost of testing, lack of information, or fear;

Whereas access to screening mammography is directly related to socioeconomic status;

Whereas increased awareness about the importance of screening mammography will result in the procedure being regularly requested by the patient and recommended by the health care provider; and

Whereas it is projected that more women will use this lifesaving test as it becomes increasingly available and affordable: Now, therefore, be it
